

Building the Capacity of Local Stakeholders in Urban Agriculture

The CFF Programme enhances the capacities of local stakeholders such as NGOs, municipal departments, farmer organizations, research and training institutes as well as planners. It helps them to effectively engage in multi-stakeholder action planning, policy formulation and implementation in urban agriculture.

Capacity building of stakeholders is facilitated through the organization of :

- Training of trainers on Urban Agriculture
- Technical training workshops
- Policy seminars
- Field visits
- Farmer field schools
