

Managing Information and Sharing Knowledge

This Programme prepares and distributes urban agriculture materials which are adapted to the specific needs of stakeholders. These materials include :

- Urban Agriculture Magazine
- Guidelines and manuals
- Documentation on good practices
- Policy briefs
- Fact sheets

The Programme facilitates networking and access to information by local stakeholders through a web of websites. It handles the maintenance of databases as well as the urban agriculture library.

In addition, the Programme provides a portal to websites with access to literature, e-conferences, important events, and web links
